Assessment**

# **Ghana 2021 National Standardize Test Report Findings**

# Ghana 2021 National Standardize Test Report of Findings

## Acknowledgement

This assessment report was made possible through the instrumentality of the Standards, Assessment and Quality Assurance Directorate of the National Council for Curriculum and Assessment (NaCCA) and the enormous contribution made by the West African Examination Council (WAEC) by conducting the National Standardised Test (NST) in December 2021. The Director General of NaCCA, Prof. Edward Appiah was instrumental in the analysis of the NST with funds provided by Ministry of Education (MoE) through the World Bank.

We gratefully acknowledge the role of Prof. Eric Anane (psychometrician) from the University of Cape Coast for his enormous contribution to the data analysis. The Standards, Assessment and Quality Assurance Directorate of NaCCA (SAQA) also acknowledge the immense contributions of all key stakeholders throughout the country for the success of the 2021 NST.

Finally, we appreciate the contributions of the SAQA analysis team, Edward Asante, Frank Appoh and Sherif Mohammed for putting together the analysis and report.

## Executive Summary

This report presents the findings from the 2021 administration of the National Standardised Test (NST) carried out by the Standards, Assessment and Quality Assurance directorate of National Council for Curriculum and Assessment (NaCCA) and the West Africa Education Council (WAEC).

The 2021 edition of the P4 NST was the first census assessment which was administered by WEAC and analysed by NaCCA . It covered all 16 regions of Ghana in 14,886 schools and testing 431206 learners in December 2021. The census was designed to be representative at the national and regional levels and at the district levels. The tests were made up of thirty-five (35) multiple-choice questions each on Mathematics and English Language. The items were based on the standards-based curriculum for English Language and Mathematics. The P4 NST is a curriculum-based competency assessment that reflects the entire curriculum. It is a representative measure of learners' competency in Mathematics and English language at the national, regional and district levels.

**TABLE ES 1: SUBJECT DOMAINS**

English Language	Mathematics
Reading	Number Operations
Grammar usage at word and phrase levels	Algebra
Writing	Geometry and Measurement
	Data

### 2021 NST Results

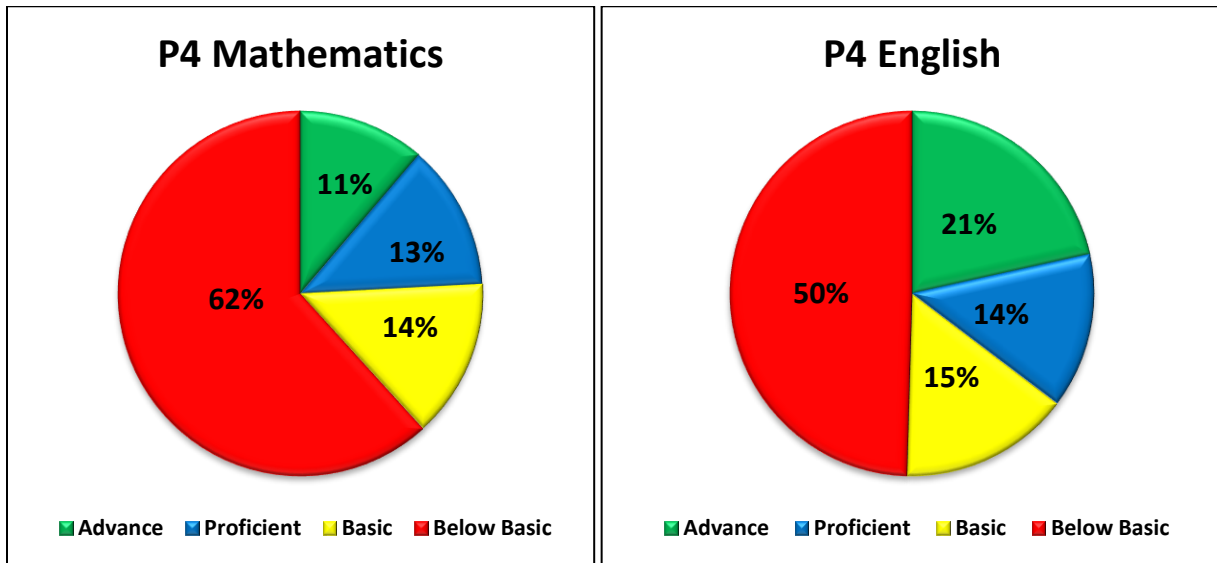

All four subject-area components (P4 Mathematics, P4 English Language) used the same test score cut-off points to indicate that a learner had achieved the *advanced*, *proficient*, *basic* and *below basic level*. These cut-off points were established by the NPLAF in 2020. Learners who scored 49% were defined as having reached below basic and learners scoring 80% or better were defined as having reached advanced.

**TABLE ES 2: NATIONAL COMPETENCIES BY GRADE AND SUBJECT**

Competency levels	National competencies by grade and subject	
	P4	
	Mathematics	English Language
Below Basic	62	50
Basic	14	15
Proficient	13	14
Advanced	11	21
<b>Total</b>	<b>100</b>	<b>100</b>

Table ES 2, provides information on learners' performance according to the nationally defined cut-off points and includes the proportion of learners who failed to achieve minimum competency. 11% of learners met the advanced cut-off point in Mathematics and 21% of the learners achieved advanced in English language. 62% of learners had below basic in Mathematics and 50% of learners had below basic in English language. This implies that learners performed better in English Language than Mathematics.

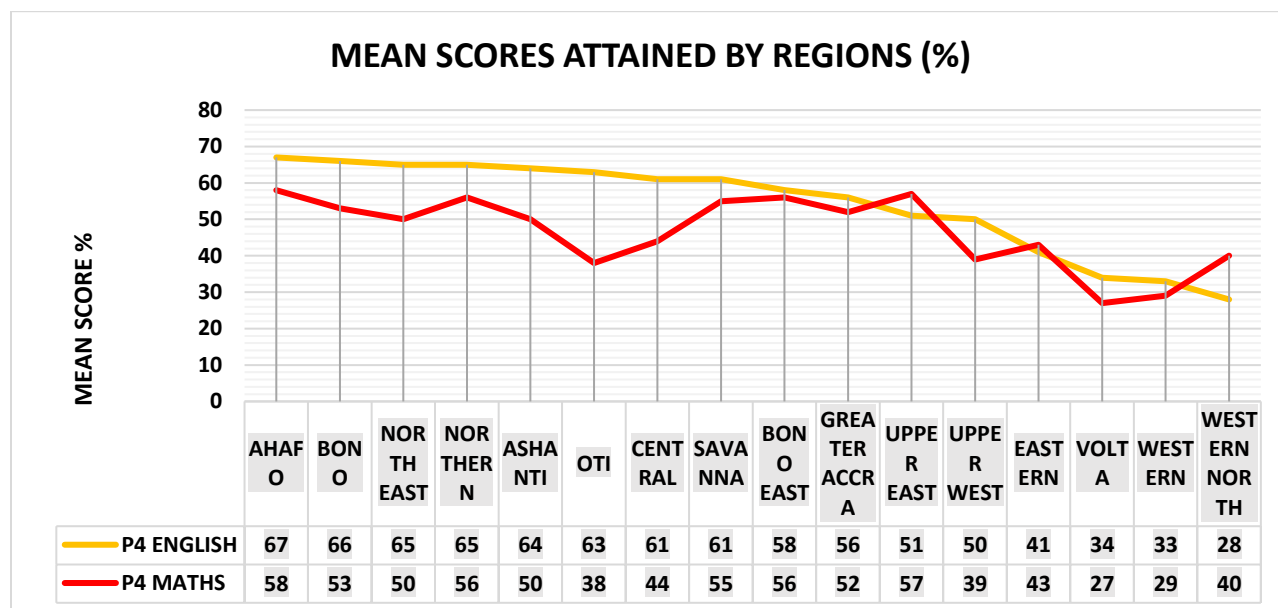

**Figure ES 1: 2021 PERFORMANCE STANDARDS FOR ENGLISH LANGUAGE AND MATHEMATICS**

In Mathematics, only 11 % made it to the advanced level while 62% of learners had below basic level. This indicated that more than 50% of learners who took the test, performed below basic level in mathematics.

In English Language, 21% of learners made it to the advanced level while 50% of learners had below basic level. This indicated that exactly 50% of the learners who took the test, performed below basic level in English Language.

**Figure ES 2: NATIONAL MEAN SCORE BY REGIONS FOR BOTH SUBJECTS**

Ahafo region had 67% in English Language while Volta had 27%. This implies that Ahafo performed better in English language in the NST test. For Mathematics, Ahafo Region had 58% indicating the highest score among the 16 regions. While, Volta had 27% representing the least among the 16 regions.

### Key findings

The following are the key findings:

- Learners performed better in English Language than Mathematics. English language had 10% more learners attaining the advanced level as compared to Mathematics. The NST findings indicated that all schools were challenged by both English Language and Mathematics.
- Ahafo and Bono regions outperformed all other regions in both subjects and grades.
- Volta, Western, and Western North regions have the poorest performance both in proficiency levels and averages.
- In general, boys and girls performed similarly in the 2021 NST.

## **Chapter 1**

### **Background**

National Assessment is designed to generate data at the national level on how well learners in Ghanaian schools are meeting the expectations of the curriculum. It also identifies what learning gaps need to be addressed and which schools and districts need specific intervention.

The National Standardised Test (NST) is to be used to assess curriculum standards including the 4Rs, knowledge, skills, values and attitudes that are central to the new pre-tertiary education curriculum. This NST is responsive to Ghana's Education Strategic Plan 2018-2030, which prioritises improving learning outcomes at all levels by creating a national standards-based assessment at primary level in order to measure the quality of learning achievement before the end of JHS. According to the ESP 2018-2030, this will provide the evidence to allow future interventions in the quality of education delivery to be better targeted.

The NST is a type of evaluation and has all four attributes of an evaluation:

- Systematic collection of evidence
- Interpretation of evidence
- Value judgment made about what is being evaluated
- Action orientation.

The NST reflects increasing globalization and interest in global mandates. It also represents an overall shift in emphasis in assessing the quality of education inputs to learning outcomes.

In order to help turn around performance in our public basic schools and provide equitable access to quality basic education for all children, the Ministry of Education developed an Education Strategic Plan (ESP 2018-2030) with quality, access, equity, sustainability and relevance, as its key priority areas.

In 2021, the Standards, Assessment and Quality Assurance directorate of NaCCA, in collaboration with the WAEC, conducted the National Standardised Test (NST) for P4 learners to assess learning outcomes.

**Purpose of P4 NST**

The P4 NST is designed to generate data at the national level on the performance of Ghana's schools. This will help make recommendation for policy makers to improve education quality and inform teaching and learning in schools.

It also provides relevant information to stakeholders on how to make strategic choices for improving learners' performance irrespective of their characteristics. In addition, it provides a platform for dialogue and evidence-based data for improving teaching and learning techniques and remedial instruction.

## Chapter 2

### Test Structure and Administration

The P4 National Standardized Test (NST) was a multiple-choice test whose content was based on the standard-based curriculum in Mathematics and English language. The P4 NST was administered on the 17<sup>th</sup> of December, 2021 by WAEC. The 2021 P4 NST was conducted at various centers across the country.

**TABLE 1: TEST ITEMS COVERED, SKILLS AND KNOWLEDGE ACROSS THE FOLLOWING DOMAINS**

English Language	Mathematics
Reading	Number Operations
Grammar usage at word and phrase levels	Algebra
Writing	Geometry and Measurement
	Data

### Preparation of Test Materials

The test items were developed, and pilot tested by WAEC. There were 6 parallel forms of the test for both Mathematics and English Language. The test items were moderated before it was finalised to ensure that individual items within the test would measure the intended cognitive skills with reliability and an appropriate range of difficulty.

### Data Collection and Management

Data collection for the 2021 P4 NST took place in December 2021 with test administration completed in all schools. Test booklets were collected, scanned by WAEC and the data was submitted to NaCCA in June 2022.

## CHAPTER 3

### 2021 NST Results

All four subject-area components (P4 mathematics, P4 English) used the same test score cut-off points to indicate that a learner had achieved the *advanced, proficient, basic* and *below basic level*. These cut-off points were established by the NPLAF in 2020. Learners who scored 49% were defined as having reached below basic and learners scoring 80% or better were defined as having reached advanced.

**TABLE 2: NPLAF PROFICIENCY LEVELS**

Level of Proficiency	Score
Highly Proficient (HP)	80+
Proficient (P)	66 -79%
Approaching Proficiency (AP)	50 -65%
Developing (D)	49% and Below

For communication purposes and for easy understanding, the proficiency levels outlined in the NPLAF were adapted and used as follows:

- **Below Basic (BB)** (less than 49% correct or below)
- **Basic (B)** (50% correct but less than 66%)
- **Proficient (P)** (66% correct but less than 80%)
- **Advanced (A)** (80% correct or higher)

**TABLE 3: OVERALL AVERAGE PERCENT BY GRADE AND SUBJECT**

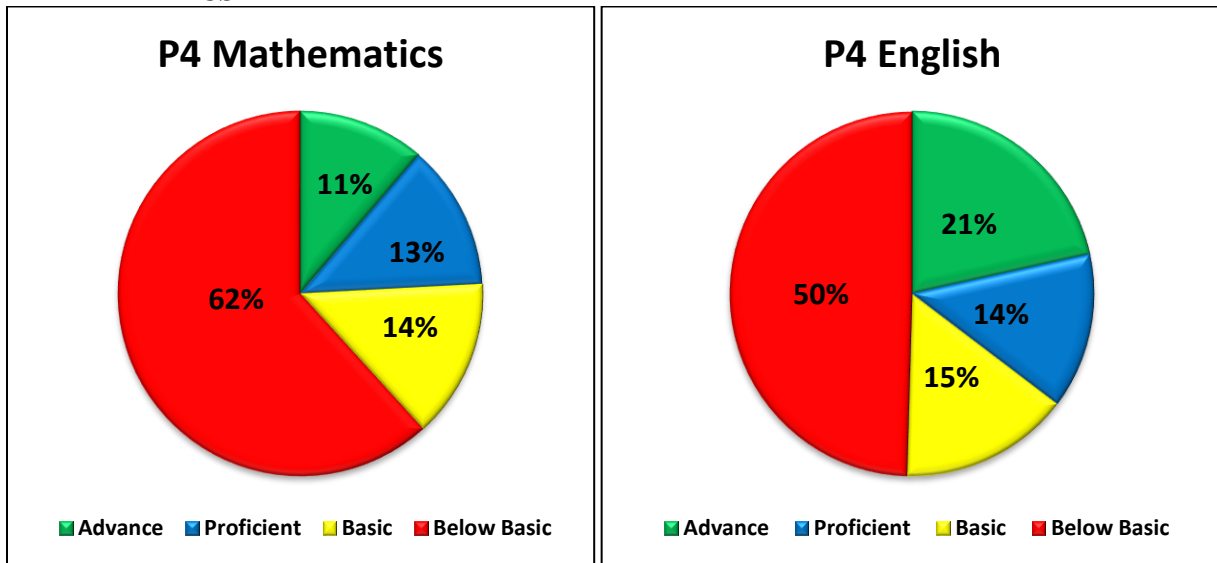

<b>SUBJECT AND GRADE</b>	<b>MEAN SCORE %</b>	<b>P4 (95% CONFIDENCE INTERVAL)</b>
<b>ENGLISH</b>	<b>54</b>	<b>(60.93, 47.08)</b>
<b>MATHEMATICS</b>	<b>46</b>	<b>(51.27, 40.73)</b>

**TABLE 4: TABLE OF CONFIDENCE INTERVAL AND MEAN SCORE BY SUBJECT**

<b>SUBJECT</b>	<b>MEAN SCORE %</b>	<b>P4 (95% CONFIDENCE INTERVAL)</b>
<b>ENGLISH</b>	<b>54</b>	<b>(60.93, 47.08)</b>
<b>MATHEMATICS</b>	<b>46</b>	<b>(51.27, 40.73)</b>

The national average score for mathematics was 46% while the national average score for English Language was 54% revealing that learners on a national scale performed better in English language than Mathematics.

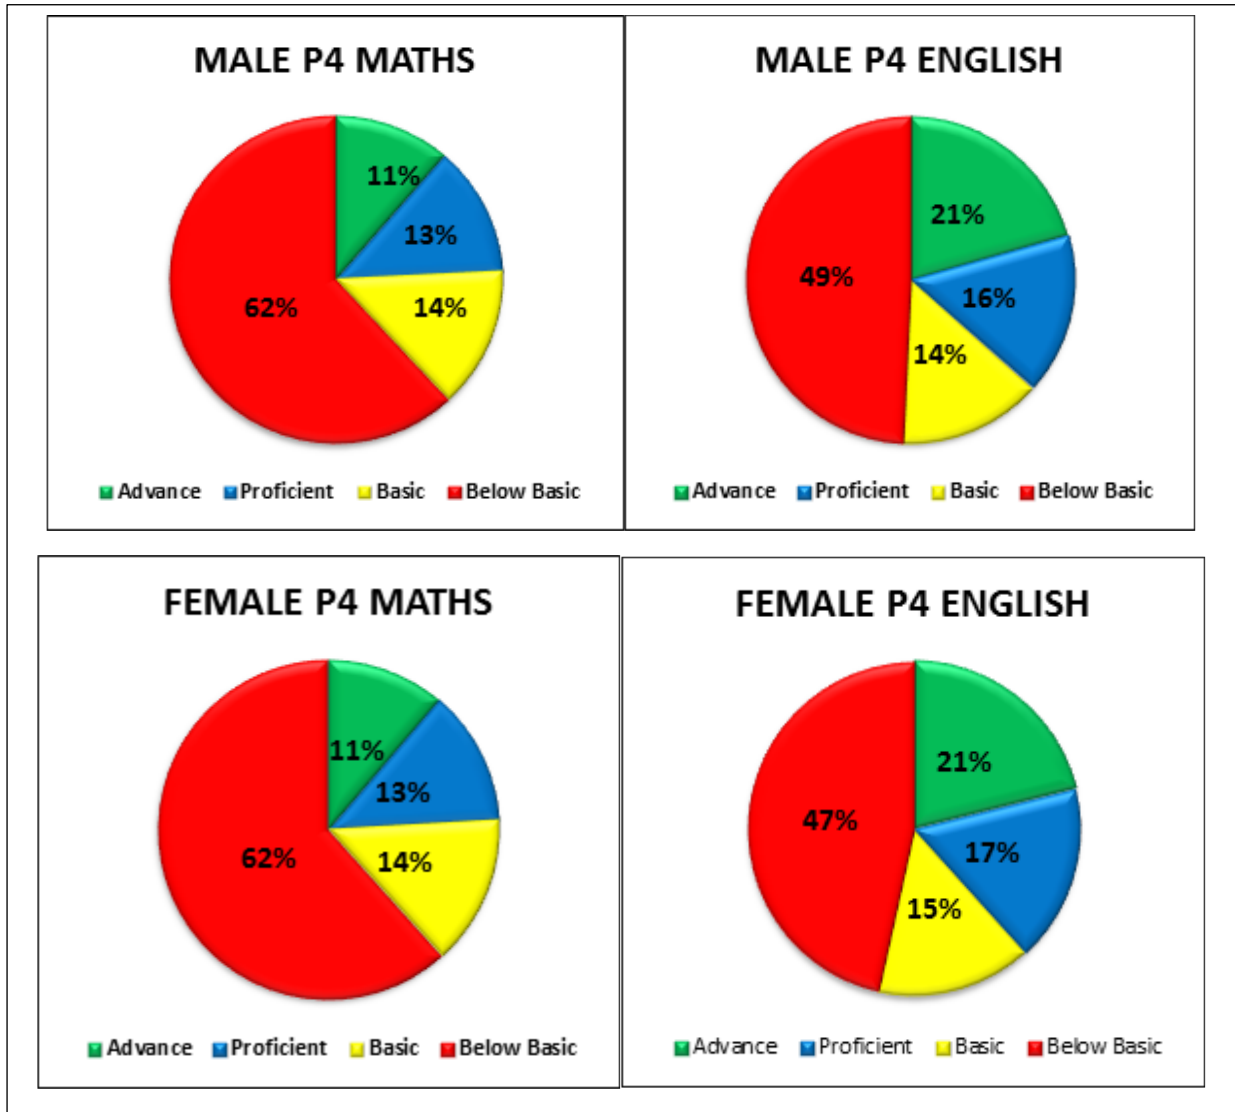

**FIGURE 1: 2021 PERFORMANCE STANDARDS FOR ENGLISH LANGUAGE AND MATHEMATICS**

In Mathematics, only 11 % made it to the advanced level while 62% of learners had below basic level. This indicated that more than 50% of learners who took the test, performed below basic level in mathematics.

In English Language, 21% of learners made it to the advanced level while 50% of learners had below basic level. This indicated that exactly 50% of the learners who took the test, performed below basic level in English Language.

**FIGURE 2: PERFORMANCE STANDARDS BY SEX**

The NST data were also examined according to subgroups (**Figure 2**) Average performance for males and females was the same for P4 mathematics. There were small but statistically significant differences between male and female learners for English Language.

**TABLE 5: NATIONAL COMPETENCIES BY GRADE AND SUBJECT**

NATIONAL COMPETENCIES BY GRADE AND SUBJECT		
Competency levels	+P4	
	Mathematics	English Language
Below Basic	62	50
Basic	14	15
Proficient	13	14
Advanced	11	21
<b>Total</b>	<b>100</b>	<b>100</b>

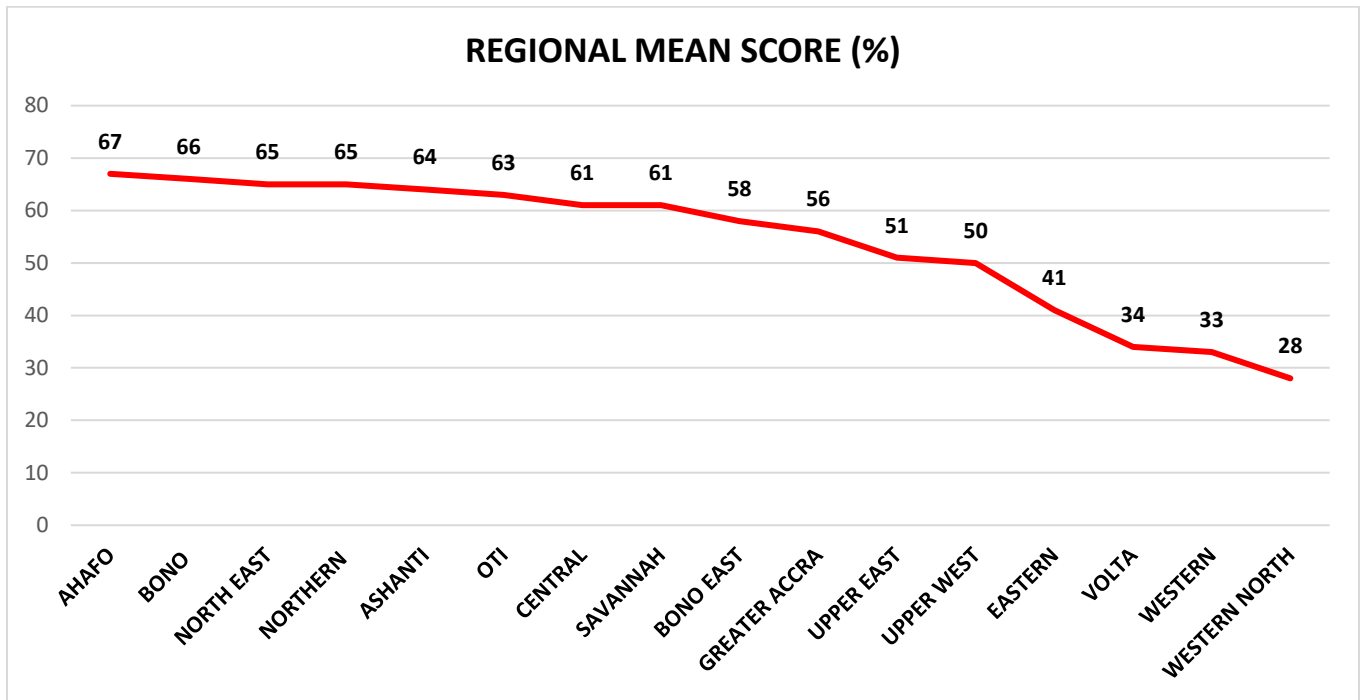

**Table 5** provides information on learners' performance according to the nationally defined cut-points and includes the proportion of learners who failed to achieve minimum competency. 11% of learners met the advanced cut-off point in Mathematics and 21% of the learners achieved advanced in English language. 62% of learners had below basic in Mathematics and 50% of learners had below basic in English language. This implies that learners performed better in English than Mathematics

**TABLE 4: MEAN OF SUBJECTS BY REGION**

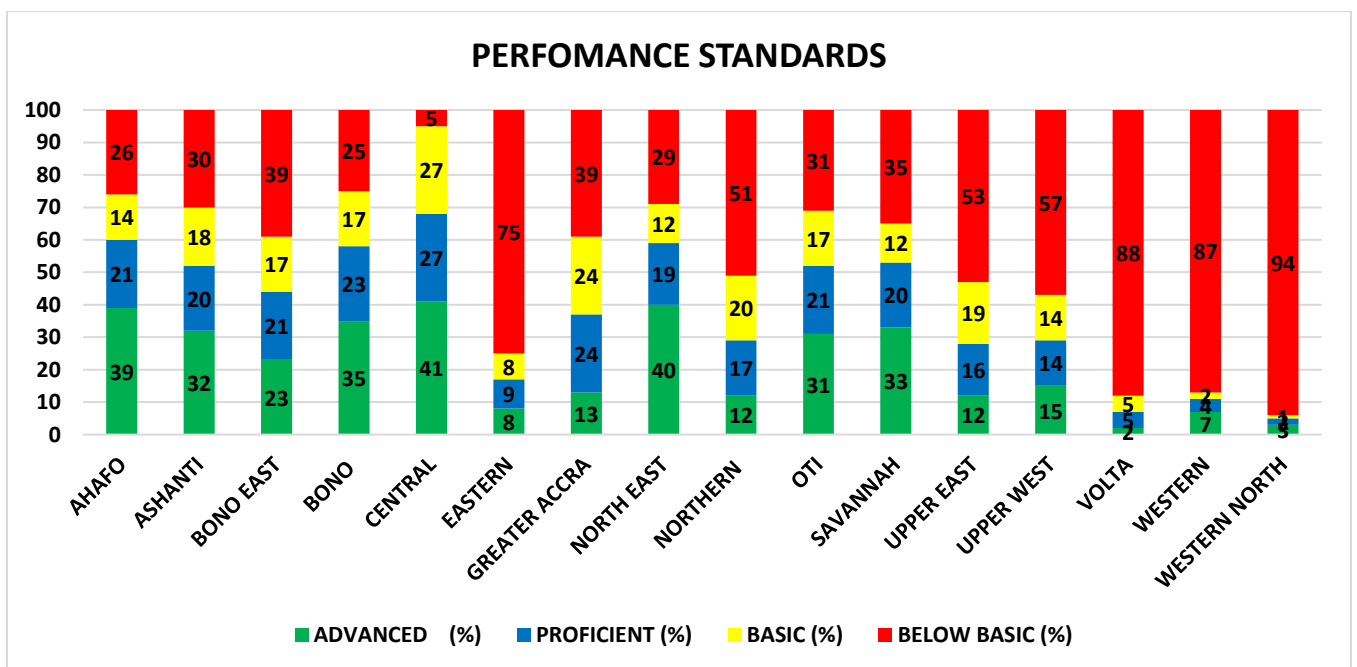

REGION AND SUBJECT	MEAN SCORE %	95% CONFIDENCE INTERVAL	REGION AND SUBJECT	MEAN SCORE %	95% CONFIDENCE INTERVAL
<b>P4 ENGLISH LANGUAGE</b>			<b>P4 MATHEMATICS</b>		
AHAFO	67	(73.9, 60.1)	AHAFO	58	(63.3, 52.7)
BONO	66	(72.9, 59.1)	BONO	53	(58.3, 47.7)
NORTH EAST	65	(71.9, 58.1)	NORTH EAST	50	(55.3, 44.7)
NORTHERN	65	(71.9, 58.1)	NORTHERN	56	(61.3, 50.7)
ASHANTI	64	(70.9, 57.1)	ASHANTI	50	(55.3, 44.7)
OTI	63	(69.9, 56.1)	OTI	38	(43.3, 32.7)
CENTRAL	61	(67.9, 54.1)	CENTRAL	44	(49.3, 38.7)
SAVANNA	61	(67.9, 54.1)	SAVANNA	55	(60.3, 49.7)
BONO EAST	58	(64.9, 51.1)	BONO EAST	56	(61.3, 50.7)
GREATER ACCRA	56	(62.9, 49.1)	GREATER ACCRA	52	(57.3, 46.7)
UPPER EAST	51	(57.9, 44.1)	UPPER EAST	57	(62.3, 51.7)
UPPER WEST	50	(56.9, 43.1)	UPPER WEST	39	(44.3, 33.7)
EASTERN	41	(47.9, 34.1)	EASTERN	43	(48.3, 37.7)
VOLTA	34	(40.9, 27.1)	VOLTA	27	(32.3, 21.7)
WESTERN	33	(39.9, 26.1)	WESTERN	29	(34.3, 23.7)
WESTERN NORTH	28	(34.9, 21.1)	WESTERN NORTH	40	(45.3, 34.7)

Ahafo region had 67% in English Language while Western North had 28%. This implies that Ahafo performed better in English Language in the NST test. For Mathematics, Ahafo Region had 58% indicating the highest score among the 16 regions. While, Volta had 27% representing the least among the 16 regions.

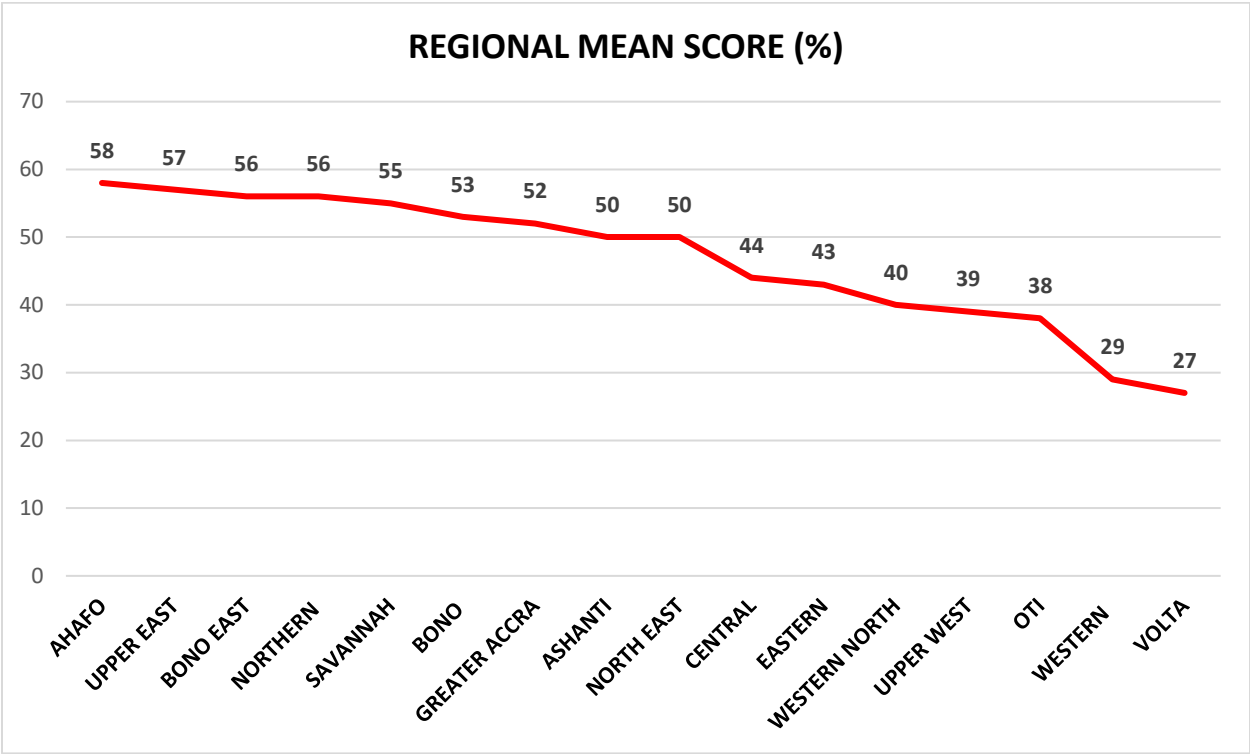

**FIGURE 3: REGIONAL MEAN SCORE (ENGLISH LANGUAGE)**

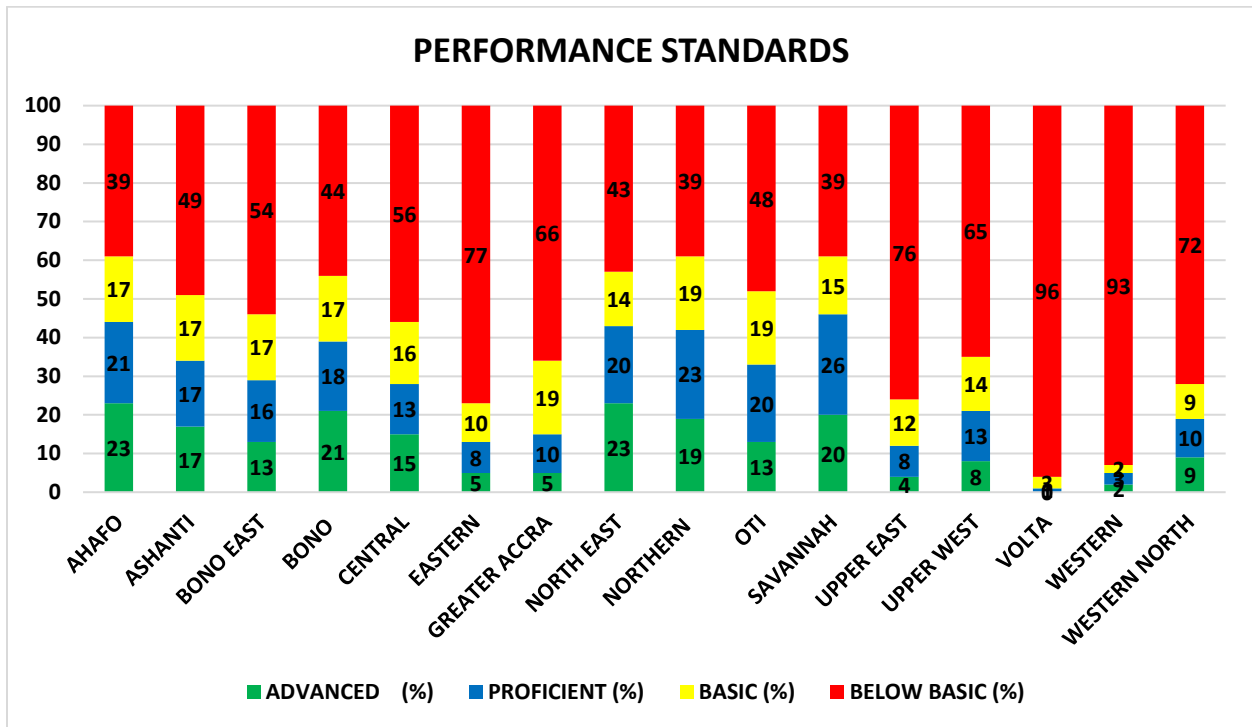

**FIGURE 4: PERFORMANCE STANDARDS (ENGLISH LANGUAGE)**

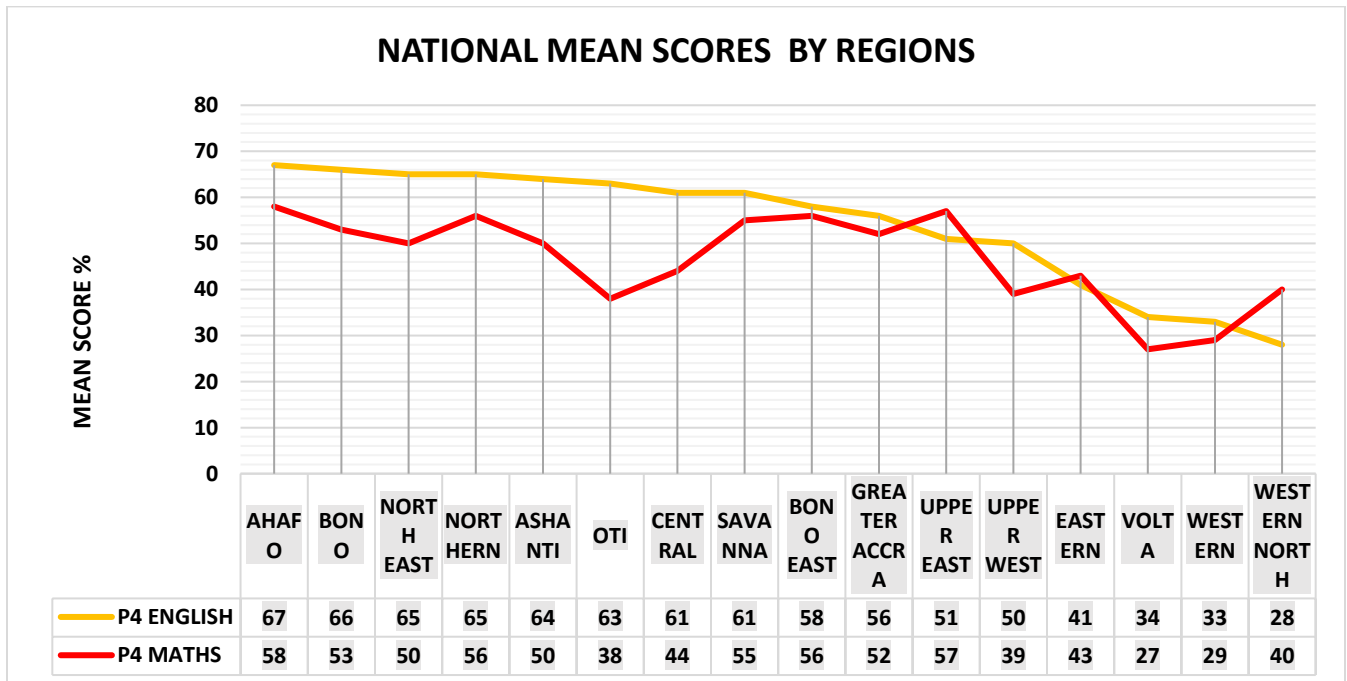

**FIGURE 5: REGIONAL MEAN SCORE (MATHEMATICS)**

**FIGURE 6: PERFORMANCE STANDARDS (MATHEMATICS)**

**FIGURE 7: NATIONAL MEAN SCORE BY REGIONS FOR BOTH SUBJECTS**

Ahafo region had 67% in English Language while Western North had 28%. This implies that Ahafo performed better in English language in the NST test. For Mathematics, Ahafo Region had 58% indicating the highest score among the 16 regions. While Volta had 27% representing the least among the 16 regions.

## Chapter 4

### Key findings

The following are the key findings:

- Learners performed better in English Language than Mathematics. English language had 10% more learners attaining the advanced level as compared to Mathematics
- The NST findings indicated that all schools were challenged by both English Language and Mathematics.
- Ahafo and Bono regions outperformed all other regions in both subjects and grades.
- Volta, Western, and Western North regions have the poorest performance both in proficiency levels and averages.
- In general, boys and girls performed similarly in the 2021 NST.

### Conclusion and Recommendation

In conclusion, a concerted effort needs to be made to ensure that when learners reach P4, they will have the foundational skills they need to complete the more advanced tasks at mid- and upper primary English language and Mathematics. In early classes, learners need to learn problem solving tasks so that they can develop the understanding needed to perform more challenging tasks. The development of the pre-reading skills that lead to reading with comprehension is required for learners to independently perform well on the P4 English Language and Mathematics tests that constitute the NST. The result from the 2021 P4 NST is a baseline for the census conducted. Therefore, poor performing regions and districts should be looked at and given the appropriate interventions. It is recommended that the Ministry of Education and the Ghana Education Service should retrain teachers and provide quality learning resources and continue to work strategically towards reducing the disparities in the primary education and implement interventions to improve learning outcomes throughout the country.
